Rush University Medical Center
Evidence-Based Falls Prevention Program

Goals, Strategies, and Activities
The overall purposes of this two-year grant are to:

- Significantly increase the number of older adults and older adults with disabilities at risk of falls who participate in evidence-based community programs to reduce falls and falls risks; and
- Implement innovative funding arrangements to support community-based falls prevention programs beyond the grant period, while embedding the programs into an integrated, sustainable evidence-based prevention program network.

Rush University Medical Center, in partnership with the Illinois Community Health and Aging Collaborative and other key stakeholders, will implement the following falls prevention program for at-risk older adults and adults with disabilities:

- A Matter of Balance, an eight session community-based workshop designed to reduce the fear of falling and increase activity levels.

Partnerships
To achieve the goals of the grant, Rush University Medical Center will collaborate with the following key partners:

- Illinois Department of Public Health and Department on Aging;
- Illinois Aging Services, Inc.;
- Department of Family and Support Services, City of Chicago;
- Illinois Community Health and Aging Collaborative;
- MaineHealth’s Partnership for Healthy Aging, A Matter of Balance;
- AgeOptions, the Area Agency on Aging of Cook County;
- Illinois Area Agencies on Aging;
- Illinois Coalition on Falls Prevention;
- White Crane Wellness Center;
- AgeSmart Community Resources;
- CIMPAR, SC medical group practice;
- Illinois Health and Hospital Association;
- Illinois Physical Therapy Association;
- University of Illinois at Chicago, College of Applied Health Sciences;
- Visiting Nurses Association of the Rockford Area;
- Geriatric Workforce Enhancement Programs in Illinois;
• Molina Healthcare; and,
• NextLevel Health, a Medicaid managed
care health plan.

**Anticipated Results**

• Expand the reach of A Matter of Balance
  in Illinois by creating a platform of Master
  Trainers and Coaches to sustain program
  delivery;
• Increase statewide participation of at
  least 1,000 older adults and persons with
  disabilities including those living in rural
  areas, in A Matter of Balance
  programming;
• Implement a total of 100 A Matter of
  Balance classes in Illinois and achieve a
  completion rate of 80% ;
• Improve participant health outcomes,
  including increased confidence,
  activation, and increased exercise and
  physical activity;
• Distribute and include A Matter of
  Balance educational content and
  materials within Geriatric Workforce
  Enhancement Programs and other
  community institutions and service
  organizations’ regular services;
• Establish referral relationships with
  primary care and obtain formalized
  partnerships;
• Increase public awareness, education,
  marketing, and recruitment processes by
  leveraging current efforts within the
  aging network; and,
• Establish sustainable funding
  arrangements through strategic
  partnerships by embedding A Matter of
  Balance into an established integrated,
  evidence-based prevention program
  network.
