March 21, 2016

The Honorable John Kline
Chairman, Committee on Education & the Workforce
U.S. House of Representatives
Washington, DC 20515

The Honorable Robert C. Scott
Ranking Member, Committee on Education & the Workforce
U.S. House of Representatives
Washington, DC 20515

Dear Chairman Kline and Ranking Member Scott:

On behalf of the undersigned organizations, we are pleased to offer our support of the House Amendment to Senate Bill S. 192 to reauthorize the Older Americans Act. On July 16, 2015, the Senate passed S. 192, the Older Americans Act Reauthorization Act of 2015, under unanimous consent. We supported that bipartisan measure, and the undersigned organizations encourage all Members of the House of Representatives to approve the modest changes included in the House version of the bill without delay. We sincerely thank you and your staff for all the work that brought us to this milestone in the process.

Since 1965, the OAA has been essential to developing, coordinating, and delivering home and community-based services that help older adults age with independence and dignity in their homes and communities. Many individuals served by OAA-funded programs are at significant risk of hunger, isolation, and losing their ability to remain healthy and independent.

OAA-supported programs such as home-delivered and congregate meals, transportation services, caregiver assistance, and elder abuse protections are just some of the vital services the OAA provides to more than 11 million seniors and caregivers annually. The OAA also includes the Senior Community Service Employment Program, the only federal workforce program targeted to help low-income older adults prepare for and obtain employment in the community, and the Long-Term Care Ombudsman Program that advocates for seniors who live in long-term care facilities. S. 192 preserves and improves the current law and its critically important programs.

By keeping seniors healthy and in their communities, OAA programs delay, decrease and can even prevent the need for more expensive hospitalization and even institutional care—such as that paid for through Medicare and Medicaid—effectively saving taxpayer dollars and improving our country’s fiscal future. Given the importance of OAA programs to older adults, families, and caregivers across the country, we support S. 192’s swift passage in the House and look forward to seeing the bill signed into law this year.

We stand ready to work with you to build upon the success of the OAA in the current reauthorization process and beyond.
Sincerely,
